DETAILED ACTION

1. A substitute specification in proper idiomatic English and in compliance with 37 CFR 1.52(a) and (b) is required. The substitute specification filed must be accompanied by a statement that it contains no new matter.

Claim Rejections - 35 USC § 112

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

8. Claim 2: Golden'865 discloses a number of grooves (24, 27) and protrusions (23, 26) formed on the inner contacting surfaces of the first and second extensions in a corresponding (Figure 1) unevenness shape.

9. Claim 3 and 7: Golden'865 discloses that the bottom of the pressing portion (15) is formed of a convex curved surface
